The country will be soon able to say—"The late Confederate Congress."

The movement to abolish Resumption and the banks, has led the people to abolish the Democratic party.

The Confederate Brigadiers are receiving timely notice that they can not control Congress after next year.

The Democratic mud which was prepared for the State administration, is drying in the hands of the Democrats.

While the Republicans are pushing the campaign to a victorious conclusion, the Democratic party is learning to keep silent.

The Democracy has found its Waterloo and Appomattox. It has not only been whipped, but has been compelled to surrender.

The Republicans of Wisconsin will treat themselves with a big majority in November. They don't propose to be delicate about it.

Eight millions of immigrants have found homes in the United States during the last thirty years. It is estimated that during the present year the immigration will reach 160,000.

The Richmond (Va.) State Democrat, says, "We confess we see no future for the Democracy, and the struggle for the contest of the National Government might as well be given up."

In New York State the Republicans hold sixty-two large mass meetings to-day (Wednesday,) and on Thursday, fifty-nine At all these meetings the best orators in the country will speak.

It is the opinion of the Cincinnati Gazette, which is an excellent political prophet, that the next Congress will be overwhelmingly Republican. The present political outlook certainly indicates that such will be the case.

George W. Williams, the colored man who has been elected to the Ohio Legislature from one of the Districts in Cincinnati, has gone to New York to take the stump for Cornell. He is an intelligent man, is a good speaker, and will do good service.

Some idea of the campaign work now being done by the Republicans, can be obtained by a reference to the appointments published in this issue of the Gazette. They show the party means business, and proposes to win a solid victory for a solid North.

Hon. J. B. Cassoday will make three important speeches in the present campaign, at Wausau, on the 28th, Grand Rapids, 29th, and Waupaca on the 30th. Mr. Cassoday commends attention wherever he goes, and never fails to draw large audiences.

The Philadelphia Times, independent Democrat, says the party is in want of a leader. What it most needs is principle and a consistent policy, and then honest men to lead it. But the Democrats will never be so fortunate as to have these things. Politically, they are forever bankrupt.

Mr. Jenkins takes a very sensible view of his candidacy. He confesses that he can not be elected, and for that reason will not villify Governor Smith, no: any member of the State administration, and will not malign the Republican party. He proposes to go out of the contest, so far as possible, clean handed.

Some of the Democratic papers which, for a few days, followed the course of the Madison Democrat in throwing mud at Governor Smith, feel like kicking themselves for the wilful attempt to injure the character of an honest man. They begin to see that that course will not make votes for the Democratic ticket.

The papers are having a good deal to say about "Bloody Rock." It will be noticed that if other counties would keep their criminals at home, Rock county would be peaceable enough. Dickerson came from Dodge, Baumgarten from Jefferson, and Christiansen from Milwaukee. Each should be hanged, and the cost charged up to their respective counties.

The State Journal commenting on the nomination of Mr. Lawrence, says: "The Republicans of the Janesville Assembly District in Rock county, have nominated

THE JANESVILLE GAZETTE.

VOLUME 23 — JANESVILLE, WISCONSIN, WEDNESDAY, OCTOBER 22, 1879. — NUMBER 194

Frank S. Lawrence for Member of Assembly. Mr. Lawrence is an old resident of Janesville, having lived there for the largest portion of his life. He has been a firm and consistent Republican ever since the organization of the party: he has been identified with the business interests, agricultural, manufacturing and mechanical, of Rock county, for more than thirty years, and in every respect he will make a first class legislator. The Convention which put him in nomination passed a resolution instructing its nominee, if elected, to vote for the restoration of the death penalty for murder in the first degree. Mr. Lawrence's election is beyond a doubt."

"If there is any meaning in this election it is that the rag baby must remain dead forever; that the South must disarm, not deserve, Northern apprehension.

"Yazooism must cease.

"Political murders must cease.

"Foolish eulogies of the lost cause by leading men must cease.

"Hair splitting theories and assertions about State rights and the national authority must cease from Southern leaders.

"But above all must cease that toleration of lawlessness, shotguns, and rifle clubs, which is the curse of the South."

This is plain Democratic talk from the St. Louis Despatch, a Democratic paper, which has been forced to take this position by the response of Ohio to the course of the Democratic leaders in the South.

ZACH CHANDLER COMING.

All arrangements have been completed for the reception of United States Senator Zach Chandler, at Janesville, on Thursday, the 30th instant. The reputation and fame of the man and the importance of the occasion, will insure on that day the largest political gathering ever seen in this city He will speak in the afternoon in Burr Robbins' immense pavilion, which will be seated expressly for the mass meeting. It will hold thousands, and those who come from the country with their families, may expect to be provided with good seats.

Mr. Chandler is one of the greatest political characters in this country. He has been in public life many years. He stood up with Jefferson Davis in the United States Senate in 1857 and took the oath of office, and since that time has been almost constantly in Congress, and has never violated that oath nor misrepresented his constituents. No taint of dishonor rests upon him. He has been a true man, a brave patriot, a noble defender of the oppressed and down-trodden, an American in every sense of the word, and to day stands among the most honored in the land. He is a plain, but vigorous speaker, and can hurl as many facts and sharp points at an audience as any man in this country. This old political veteran, this courageous champion of human liberty, and honored statesman, will be heard with delight by the Republicans of Rock county. Let all come who can, and join in the political festivities of that memorable 30th of October.

THE WORK FOR REPUBLICANS TO DO.

Notwithstanding the fact that the Republicans will sweep the State by an increased majority over last year, there yet remains a great amount of work to do. Because the political skys is bright, and this is a year of jubilee for the Republicans the party must not lull in over confidence, and leave the work to be done by a few. Every man has an interest in this contest, and he must be counted as one who will put his shoulder to the wheel, and do all in his power to swell the majority to the greest possible figure. The reason why the Ohio victory was so flattering to the Republicans, was that the entire party was out, that every man "took the field," so to speak, and each did his share of the great work.

This must be done by the Republicans of Wisconsin. Each man must not only cast his own vote, but he must see that his neighbor does likewise. This is the way great political victories are won, and it is the way and the only way, the Republicans of Wisconsin can re-elect the present administration by a rousing majority. The Republicans have the strength, they have means they have the record, they have everything to encourage them to work and hope, while the Democrats are silent, hopeless, and despondent. But because the Democrats are assuming a funeral aspect, the Republicans should not be slack in their duty. They should strive all the more to make the defeat of the Democratic party so complete and overwhelming, that the party can never again sail under false pretenses.

Every vote is a significant factor in the all-important contests of 1879 and 1880. The greater the majority in Wisconsin in 1879, the more pronounced will be the State in 1880, and more decisive the victory next year. The successes in the States have a powerful influence over each other. The marvelous victory in Ohio, and the old-time majority in Iowa, will raise the enthusiasm of Wisconsin Republicans, and will do much to secure a Republican victory in New York. The greater the majority Wisconsin will give in 1879, the better prepared she will be to stand among the foremost Republican States in 1880.

ZACH CHANDLER.

His Views on the Political Situation in New York and Wisconsin.

LANSING, Mich., Oct. 21—Senator Zach Chandler arrived here to-night, having left New York Sunday morning. He will spend a few days at his farm, near this city, and says, in his droll way, that he shall be engaged as "boss carpenter" during that time in barn building, as he is having an immense barn built, holding 100 tons of hay. As regards the political outlook, he is jubilant, and says he has gained several points in the last few weeks. He predicts that New York will give 50,000, and is sure for 1880. He goes to Wisconsin next week, which State will, he thinks, give a larger Republican majority than ever before. He says Tilden is in the same grave with Thurman. The Presidential question being broach d interrogatively, as to the probable candidate, he replied with a smile: "You can't always tell where lightning will strike." Michigan will present Stalwart Zach as her candidate.

NORTH CAROLINA.

The Trouble with the Illicit Distillers.

WASHINGTON, Oct. 21.—Commissioner Raum has received a letter from one of the officers of the Internal Revenue Bureau of North Carolina announcing the fact that indictments had been secured against six officials of that State, at Greensboro, for interfering with United States officers in discharge of their duty. Some time ago some illict whisky was seized by the revenue agents, but was at once recovered by the distillers through a writ of replevin issued by the State judiciary, in direct violation of a United States statute, which places such seizures out of the jurisdiction of such writs, and this began to be the regular practice among the moonshine distillers of that section. As fast as the government officers seized their illicit whisky they would regain possession of it by writs of replevin. Now, in one case the Justices issuing such writs have been indicted in the Federal courts, and a test case will be tried.

THE MEEKER FAMILY.

LOS PINOS, Col., Oct. 18, via DEL NORTE Col., Oct. 21—General Adams, the Special Commissioner of the Interior Department to effect the release of the women and children captured at the White River Agency, accompanied by Count Dornhoff, of the German Legation, Washington, reached Ouray's house last night, and came to the Agency this forenoon. He leaves immediately for the White River country under an escort of fifteen Utes commanded by Chief Saperno. Douglas is encamped about 100 miles from here. If the women are given up he will probably return in six days. Chief Ouray is doing all in his power to assist Adams, and there is a fair prospect that the women will be immediately surrendered on his reaching the Indian camp.

POLITICAL.

FOX LAKE, Wis., Oct. 20—The Republican Assembly Convention for the Third District of Dodge county, held at Minnesota Junction this afternoon, nominated D. C. Williams, of Fox Lake, for member of Assembly.

MILWAUKEE, Oct. 21—Governor William E Smith was in town to day, and in conversation with The Times reporter expressed the opinion that the Republican ticket will be elected by the largest majority given in Wisconsin since 1863. The Governor said that there is a very general determination among the Republicans in the interior of the State to poll as large a vote as possible this fall in order to make an emphatic protest against the position of the Southern Democracy, and to emphasize the fact that Wisconsin will not tolerate any form of disloyalty to the national government. Governor Smith is also of the opinion that very many business men democrats will vote the Republican ticket this fall, for the effect that it will have upon the next presidential election, believing that a Democratic success in 1880 would very materially endanger the business interests of the country.

GOVERNOR SMITH.

RACINE, Wis., Oct. 21—This evening Governor Wm. E. Smith addressed a large and enthusiastic meeting in the Belle City Hall this evening. The Hon Robert H Baker introduced the Hon J T Fish, attorney of this city who made a few eloquent remarks, after which he introduced Governor Smith, who spoke for about two hours upon the issues of the day. The remarks of the Governor were loudly applauded, and the effect which he has impressed upon the Racine public will without doubt meet with happy approval.

NOVEMBER MAGAZINES.

LIPPINCOTT'S MAGAZINE.

Lippincott's Magazine for November is equal to any of its predecessors in richness and variety of interest. "Later Pompeian Days," the concluding paper of "Rambles of Three," by Margaret Bertha Wright, is very amusing and capitally illustrated. The fifth chapter of Dr. Oswald's "Summerland Sketches," describes the Sierra Madre, and gives an entertaining glimpse of convent life in the mountainous region of Mexico. An article on Leadville, also well illustrated, will command attention, after all that has been published in regard to the "Carbonate City," by its copious information as to the value and prospects of the mines, its hints to investors, and its graphic account of the manners and habits of the population. "Where the Beef Comes From" is the title of a timely and interesting paper on cattle breeding in Texas and Colorado. Dr. Alfred S. Gibbs has a lively paper on Goethe's mother, with extracts from her correspondence and sketches of her intimate friends, accompanied by an outline portrait of his remarkable woman. "The Bicycle, and Riding it," by J. Wilcox, indicates the inventions that have led to this new process of locomotion, already so popular in England, and sums up its advantages; and J. Brander Matthews discusses Sheridan's "Critic," which was first played a hundred years ago and still keeps its place on the stage. Among the stories in the number may be mentioned "A Slight Misunderstanding," which, in the form of a comedietta, and he is but a few alterations to adapt it for private theatricals, a character sketch by Phillip Bourke Marston, and the first part of a very agreeably written little tale, entitled "Aimee," which, like "Daisy Miller," deals with the life of a young American girl abroad. The "Monthly Gossip" treats of "Fall Shopping, "Emile Zola and the Prince Impeial," and other appropriate topics.

THE ATLANTIC.

The November Atlantic has several important articles. Perhaps the one which will attract most attention among thoughtful people is "The Prospect of a Moral Interregnum," by Goldwin Smith, who predicts a period of laxity and license in consequence of the alienation between religion and the scientific thought of the time. Colonel George E. Waring, Jr., writes a curiously interesting account of "The Waldenses of To-Day." A skillful writer, whose name is withheld, discusses with great force and interest "Our Military Past and Future." The author of "Massy Sprague's Daughter" contributes "Sister Mary's Story," which is easily one of the best magazine stories recently printed. Jennie Young writes of "The Ceramic Art in America;" "Irene the Missionary" is concluded. "Englishwomen in Recent Literature," "Mysterious Disappearances," and "Late Books of Travel," though anonymous, are thoroughly interesting. Richard Grant White discusses "Assorted Americanisms" as heartily and freshly as if it were a wholly new topic. The Contributors' Club abounds in bright things, and a chapter of "Recent Literature" concludes a very good Atlantic. Scores of thousands will be delighted to learn that Mr. Howells will begin a new serial story in the January Atlantic.

VETERINARY DEPARTMENT.

WM. HORNE, M. D., V. S., Manager

Devoted Exclusively to Diseases of Live Stock, Treatment and Cures. Questions Relating to the Ailments of Live Stock Freely and Plainly Answered in this Department of the Gazette.

Will Dr. Horne tell me what ails my mare. She leaks behind a whitish, thick fluid, she has been in this condition for as much as six months. Is it serious? What is it? Can it be cured, if so, how.

C. J. F.,
Town of Newark.

October 19, 1879.

Reply—You ought by all means to have attended to your mare at the commencement. By allowing the disease to go on as you have done, it has become much more formidable, and will require a much more energetic and prolonged treatment. You have a case of Leucorrhoea. Its chief causes are weakness and debility from any cause, chiefly during gestation, at parturition, and whilst suckling the offspring, many cases are traceable to neglect and carelessnes on the part of the owner toward animals at the above critical times, both in the Bovine and Equine, and also in other domestic animals under his care. In a state of natural freedom this, with many other complaints is unknown entirely, and is a result of treatment as above.

Remedy—There are many forms of treatment. With me one of the best I have found to be, internally, one ounce of fluid extract of Beth Root, (Trillium Pendulum) in two or three ounces of rain water. This must be given as a drench every morning for as much as a week. Then gradually leave off entirely all medicine internally. Inject every morning two ounces of the following: Tildon & Co.'s bromo chloralum four (4) ounces; olean water, thirty-two (32) ounces. The latter must be done before extreme cold weather comes on. After the above treatment, if the disease should manifest itself again, repeat the same remedy.

DISEASES OF THE HORSE—CAUSES AND REMEDIES—NO. 11. SPAVIN.

This is a disease of the hock, of the hind leg, and like ringbone, sidebone, &c., &c., is an exostosis. The hock or tarsus of the horse is composed of six (6) bones, and in consequence of the immense strain upon this joint, in all kinds of work, it is liable to injuries of various kinds, but the most formidable result of strain, bruise, concussion or any other injury, is spavin. I know of no injury to this joint, that may not result in spavin. So readily does ossification and enlargement take place, that the mystery is there are really so few horses spavined. Beside the above causes, spavin, like many other diseases, is largely hereditory. To this assertion there is no contradiction. Such being the fact, the folly, almost crime, of breeding from spavined animals is self manifest. Any man who will breed from a diseased mare, ought to be punished by law, made and provided for such individuals, for they deserves, and out to be punished severely.

Remedy—There is no defect to which the poor horse is subject that has more sure cures than spavin. There is no similar defect or disease more obstinate, or which really requires the skill and attention of the anatomist and expert, than spavin, yet, how are the horse owners gulled by cheeky quacks, men void alike of both principle and common intelligence. The country has been for years infested by unlimited numbers of infallable spavin cures, and the most singular part of it is, though hundreds of shameful exposures have been made, though men have been swindeled out of their money, they have witnessed the untold suffering of their poor patient horses, will they again, and again, be ready to be gulled by the next ignoramous who comes along with his never fail remedies, above all his sure cure for spavin.

Reader—A developed spavin *never* was cured and *never* can be cured. All the vaunted opinions of horse owners and pestiferous quacks to the contrary notwithstanding. True, by proper treatment the lameness may be permanently cured and the usefulness of the horse secured. This is all. Cure implies bringing to its normal, natural condition. The bony tumor of spavin *remains forever*, unless removed by some mechanical operation. Just as soon as the slightest sign of enlargement or tenderness inside the hock, the horse should be at once relieved from all work—given absolute rest, apply cooling lotions—cold water, or water and vinegar half and half, or water and a little nitre, when all inflamatory action is past, cut off all the hair close and blister with *strong* blister ointment, either the fly, or the binoiodide of mercury. Do this for three or four times, then all you have to do is to keep the leg constantly covered with hogs lard.

There is just *one* proper way to treat spavin, and that is, to have the joint properly fired by a practical man, not any blockhead who *claims* to know how. This is the safest, surest, least painful to the horse, and by far the simplest, and certainly it is the cheapest and least trouble of them all. This I affirm from practical experience, having fired many hundreds with the best results.

U A PATTERSON, P. M.

CHICAGO GOSSIP.

CHICAGO, Oct. 20.—The vast array of members and hangers on, of our Board of Trade—connected with "Gamblers" Alley can well be likened unto a host of mosquitoes, in a quiet summer evening, on a rampage for prey. The old adage if I remember aright, says: "There is a tide in the affairs of war, which taken at its height throws many away up on the beach, or leaves them floundering in the mud," or words to that effect.

Wheat is slowly but surely working its way to $1 50 per bushel. Farmers can laugh in their sleeves at the warfare, and reap the benefits.

Many an honorable man, and in some instances, women, have been drawn into the whirl-pool, and now, with fortunes gone, honor gone, credit gone, manhood gone, and starvation staring them in the face, families ruined, they clutch wildly at straws, and are still whirled with fearful velocity, down, down, through the unrelenting maelstrom, and lost forever. We hear of fortunes made in a day or week, by some one or other, but of the losses, we have no record.

The reception given to Gen. Grant, on his arrival in this city next month, will stand unprecedented in the annals of this country—all classes—all nationalities—all creeds will participate in the popular welcome. There are a few Democrats here, probably a dozen all told—influential men in their own party—who may be fit to vilify and abuse him, regular Chicago Dennis Kearneys.

The Exposition closed last Saturday. It was a success. After paying all expenses, the stockholders will receive considerable of a dividend. The city wishes to obtain $5,000, as rent for the ground, but the owners of the building will not concede to it. No trouble is apprehended between the two. The city cannot afford now, to have the building removed, as it is an ornament to it, and a source of profit besides, not only to those immediately interested, but to our merchants, and hosts of others.

Chicago is full to overflowing with young ladies. They resemble the lilies of the field—neither toiling nor spinning,—yet spend a heap of money, lay around the house, or hang on the front gate, and let their mothers do all the work.

Miss Ella Wren, a well known actress, was robbed of a gold watch and chain at 304 Park Avenue last Friday night. At the same time and place the burglars robbed Mrs. Fred Wren, securing a large amount of jewelry and quite a sum of money.

The County Collector has been busily engaged for some time in selling real estate for delinquent taxes. Last week he sold some lots on the west side owned by "Our Carter," "Mayor of the whole city," on which no taxes have been paid for three or four years. L. MOUAT.

A Zach. Chandler Story.

Cleveland Correspondence of the Chicago Tribune.

It is well known all over the country that the Hon. Zach. Chandler, Michigan's favorite stalwart, came down to Ohio and did some excellent work for the cause by his plain, honest, straightforward speeches. Although a near neighbor, geographically speaking, Chandler was a good deal of a stranger here, and eager audiences gathered to hear his speeches, but more to see the man. Upon the eve of his departure for home, he was questioned in Cleveland in regard to the manner in which he had enjoyed himself while in the State. He replied:

"Oh, I don't know; this Western Reserve is a curious place. If I don't get home pretty soon I shant have anything left. I've lost already nearly everything I had when I came here. Down at a town they call Akron some fellow stole my hat and left this thing (holding up a dilapidated specimen). Down here on one of your narrow gauge railroads, I lost my gold headed cane, which I had for twenty years. But worse of all, while I was at Chardon I lost my character. It was rather curious, too. I shouldn't have found it out if John Beatty hadn't told me. You see I was speaking there in the open air, and the wind troubled me by blowing the little pieces of paper on which my notes were. So I took out my jackknife and laid it down on the paper to prevent this. And what do you think? That is a strong temperance community; and there I talked for two hours, with the back of that knife toward that audience, with a corkscrew in plain sight—and it showed that it had been used, too. I may get back my hat, and porsibly some one will repent and return my cane; but my character in that community is gone forever."

HEAD-QUARTERS!

REAL INDEMNITY!

During the last year over fifty insurance companies in the United States, of the smaller kinds, have either failed outright or have re-insured their risks in the older and stronger companies and retired from the field. The best informed insurance men and Journals are of the opinion that many more of the same class of companies will go by the board during the coming year. It is only safe now to insure in companies that have great experience and large assets.

DIMOCK & HAYNER represent sound old companies, the oldest, largest and safest in the United States and Old England, and write policies at the best rates. Losses fairly and promptly adjusted and paid.

SPLENDIDS!

Sold from the little store, 56 North Main Street, alone, and every one giving perfect satisfaction It is an easy matter for dealers to every season put in print, "Well, *now we have got* a stove to beat the Splendid." But when you ask them to show up the points of superiority, about all the satisfaction you get is "Oh! we've more frills and nickle plates, and foot rails," &c.; but when you get down to business, the following points possessed by the SPLENDID, and found in no other stove to date, is what troubles all the boys to get around:

1st, By the Ventilated Base we present one-third more heating surface.

2d. By the Latch fastenings for all doors, in place of Turn Buckels, you are safe from doors springing open, thereby emitting gases into rooms

3d. By the Sliding and Vibrating Grate we enable you to have a fresh fire at any time free from dust and waste of coal.

4th The sectional Fire Pot will last longer and can be replaced at one third the expense of any other.

5th. The Revolving Top swinging within circle of stove, never falls off or gets broken.

In regard to finish and fittings of castings and beauty of design, are way ahead of all competition.

In regard to the Splendid Oven or Parlor Cook, we are authorized to make a public test at any time, and guarantee to get up steam quicker and hold it longer on same amount of coal.

We have also the new

MISCELLANEOUS.

PROF. HARRIS' RADICAL CURE FOR SPERMATTORHŒA.

—THE—

"SEMINAL PASTILLE"

A Valuable Discovery and New Departure in Medical Science, an entirely New and positively effective Remedy for the speedy and permanent Cure of Seminal Emissions & Impotency by the only true way, viz: Direct Application to the principal seat of the Disease, acting by Absorption, and exerting its specific influence on the Seminal Vesicles Ejaculatory Ducts, Prostrate Gland and Urethra. The use of the Remedy is attended with no pain or inconvenience, it is quickly dissolved and soon absorbed, producing an immediate soothing and restorative effect upon the sexual and nervous organizations wrecked from self-abuse and excesses, stopping the drain from the system, restoring the mind to health and sound memory, removing the Dizziness of Sight, Nervous Debility, Confusion of Ideas, Aversion to Society, Etc. Etc. and the appearance of premature old age usually accompanying this trouble, and restoring perfect Sexual Vigor, where it has been dormant for years. This mode of treatment has stood the test in very severe cases, and is now a pronounced success. Drugs are too much prescribed in these troubles, and, as many can bear witness to, with but little if any permanent good. There is no Nonsense about this Preparation, Practical observation enables us to positively guarantee that it will give satisfaction. —During the eight years that it has been in general use, we have thousands of testimonials as to its value, and it is now conceded by the Medical Profession to be the most rational means yet discovered of reaching and curing this very prevalent trouble, that is well known to be the cause of untold misery to so many, and upon whom quacks prey with their useless nostrums and big fees. The Remedy is put up in a neat box, enough to last a month, and sent in a plain wrapper by mail sealed for $3.—Two boxes, (sufficient to effect a permanent cure unless in severe cases) $5 —Three boxes lasting three full months, will stop emissions, and restore vigor in the worst cases. $7—Full DIRECTIONS for using will accompany EACH BOX.

Send for a Descriptive Pamphlet giving Anatomical Illustrations, which will convince the most sceptical that they can be restored to perfect manhood, and fitted for the duties of life, same as if never affected. Sent Sealed for stamp to any one. Sold ONLY by the

THE GAZETTE.

WEDNESDAY, OCTOBER 22, 1879.

MILTON JUNCTION.

—Mr William F Morgan and wife spent a day or two in Chicago last week.

—Mr Charles Badger, of Geneva, has been spending a few days in town.

—The Northwestern Railroad Company are building a new platform around the old freight warehouse in this village.

—The barley market here the past ten days has transformed our quiet town into a busy mart which reminds one of the wheat growing days of years gone by. Armstrong & Co. are loading four cars a day and plenty coming.

—Mr N E Maxon spent two or three days in Chicago last week, taking in the Exposition and purchasing his fall stock.

—Mrs G S Erb, of Ogden City, Oregon, daughter of Rowell Hill, Esq, of this village arrived home on the 18th inst. for a few weeks' visit with her parents.

—The exceeding warm weather of the past few weeks has had a tendency to heat tobacco that was tightly shedded, though we think the damage thereby is not serious.

—The festival at Morgan's hall on Thursday evening last, under the auspices of the Congregational society, to raise funds for incidental church expenses, was quite a success. Although but poorly advertised the hall was well filled with a pleasant, genial throng, which seemed to enjoy heartily the sumptuous supper which the ladies had prepared upon long tables, running the length of the hall. The supper was supplemented with some music and recitations which were well received. The society found themselves about $30 richer at the close, above expenses.

—Rev N Wardner returned from the East on Friday last; he came home by way of Kentucky, having stopped at Lexington and other points in that State. He treated his audience at morning service with a full history of the late conference.

—The young folks gave Mr C Palmer and family quite a surprise on Saturday last, several loads going from here helping them eat apples, drink cider and crack nuts.

—Oakes Brothers' concert troupe hold forth at Morgan's hall on Thursday evening the 23d inst. They are well spoken by those who have heard them.

—M D L Fuller Esq., of Plymouth, Wis, was in town on Saturday and Sunday looking after business matters, and visiting with his mother and brother. Mr Fuller is still quite a young man, but enjoys the enviable reputation of being one of the leading lawyers of Sheboygan county.

—One of our farmers had a practical demonstration last week of resumption in receiving his pay for his crop of wheat just marketed in gold.

—Mrs Clera Coon, wife of Fred Coon, Esq, of the Oconomowoc Local, has been visiting in town for some days past, the guest of her aunt, Mrs A B Spaulding, of this village.

—The Mission Band will give a public entertainment at the new church on Monday evening the 27th inst. Aside from the literary exercise there will be a maize festival in which that commodity will be served up in all the different styles known to the culinary art. Admission to literary exercises, 10 cents; supper 10 cents. It will be worth a full attendance.

—Duck hunting at the Lake is rather thin just now, but notwithstanding that Messrs. Valentine, McKey, and others are stopping at Pierce's, and making it lively for what there is.

—Mr Alanson Coon and his daughter Nettie, have been spending a week or two in the northern part of the State, visiting Berlin, Oshkosh, and other points.

—Dr Coakley has just finished fitting up as cozy a little office as one could wish, two doors south of the postoffice.

—The Junction Mills are making a superior quality of flour out of the new crop of winter wheat, which is equal to any ever raised in the State.

JOHNSTOWN.

—There will be services at the Congregational church Johnstown, next Sunday, Oct 26th at the usual hour, 2½ p m. Rev Mr Doe, is expected to be present and preach.

MILTON.

—Rev E M Dunn will preach at the Seventh Day Baptist church next Saturday morning on the theme, "The Old Testament and essential part of Divine revelation.—Capital punishment included."

—Last Thursday Ira C Crandall brought a suit of replevin before Justice Clarke, the defendant being, J S Mills, constable. A jury was called and the case adjourned until Monday. The defendant Mills attached the property. The suit came on Monday at 9 o'clock a m, Wm Smith appearing for the plaintiff and Ed F Carpenter for the defendant and occupied the day, the case going to the jury at 7 o'clock p m, who soon returned a verdict for the plaintiff, who in their judgment established his claim of ownership in the property which he replevined. The defendant gave notice of appeal.

UNION.

—Farmers are glad for once to have cooler weather.

—Elder Rodgers will lecture next Sunday evening on "The Law and Gospel of Good Health." A full house is desirable.

—Good moonlight, good roads, and a good temperance meeting once in two weeks—Friday evenings.

—Quite a demand seems to exist for sheep in this locality this fall, both for feeding and for stock sheep; as a natural consequence the price is pretty well up

—Deacon D H K Whitcomb and wife, of Phelps county, Nebraska, made Union a short visit last week. They look hale and hearty. The Deacon has been gathering a lot of seeds and nuts to plant on his farm in Nebraska.

—A terrible, fatal accident occurred on the farm of J W Morgan of the town of Rutland, by the caving in of a well in which Mr C Pinkham, of this place, was buried to the depth of twenty feet. The accident occurred about ten o'clock on Wednesday morning, and although a large force was working at the well constantly, the body was not extricated until seven o'clock Thursday morning. The deceased leaves a wife and one child who have the sympathies of the entire community.

—Quite a delegation of Unionites attended the concert at Cooksville last Saturday evening, and pronounced it a success.

—Harris Hosley and Henry Danks expect to start for Nebraska in a few days with a flock of sheep. May success attend the boys.

WEDDING ANNIVERSARY.

Last Saturday a complete and most delightful surprise was given Mr and Mrs T I. Hollister, of the town of Rock, it being their thirtieth wedding anniversary. Despite the cold raw wind, and gloomy weather, quite a number of old friends assembled at three o'clock, and a number of useful and elegant presents were displayed from the following donors: Mr and Mrs J V Huguniu, a lovely bed spread. Mr and Mrs N W Tripp, linen lap spread, and set cuffs and collar. Mr and Mrs Dr St John, one dozen napkins, half dozen linen hemstitched handkerchiefs. Mr and Mrs J Griffin, two linen towels, gent's linen handkerchief. Mr and Mrs D Gower, linen table cloth. Mr and Mrs S Van Guelder, dozen napkins. Mr and Mrs H Zader, two linen towels. Mr and Mrs S Kemmerer, linen towel. Archie Reed, two linen towels. Mr and Mrs P Palmer, linen towel. Mrs. S. Chisman, two linen towels, pair of gents cuffs. From the four daughters Frankie, Libbie, Ella and Emma, they received an elegant pickle castor and forks. A bountiful supper was served to the guests, and the hours flew on fairy wings, with lively chat, reminiscences and exchanges of jokes. Altogether it was an enjoyable occasion, and every one seemed in the height of spirits Among the laughable incidents of the evening, was the unintentional and comical exchange of hats, by some of the gentlemen. Gentlemen, when you attend a wedding again, have your hats marked. Who ever heard of ladies not knowing their own head gear?

SORGHUM SUGAR.

A Successful Experiment—Granulated Sugar from Sorghum Cane.

Woodstock Sentinel.

The first vacuum pan boiling of sugar ever made from a sorghum cane, was turned out at the Crystal Lake Refinery here, last week, and the knotty problem of obtaining a uniform granulation of sugar from the juice of sorghum cane, over which, the most noted chemists of the land, have muddled their brains for the past 25 years, has at last been successfully and satisfactorily solved by the Crystal Lake Sugar Refinery. It has been well known that these canes contain a large percentage of sugar, but the difficulty lay in obtaining a large, solid crystal from the syrup, which is necessary to produce a first class merchantable article of sugar. This result cannot be reached by working the juice by the Louisiana cane process, and all admit that even a first class quality of syrup cannot be produced by the old open pan sorghum process. Thousands of dollars have been expended in experimenting with this product, which, heretofore, has resulted with but indifferent success, and as stated above, the Crystal Lake Refinery was first to overcome all the difficulties and win the coveted honor; and of course, in due time, will reap the pecuniary benefits resulting therefrom. However, the desired has been obtained, and hereafter sugar can be manufactured as readily from our sorghum canes, as from the Louisiana or Cuban sugar canes, and it is claimed with better results, if you only know how. The success in this enterprise was only reached by the most indefatigable exertions on the part of the manager Mr A. J. Russell, and the refiner Mr. J. B. Thoms, as they have been obliged to labor under many discouraging disadvantages, principal of which, was the condition of the cane. It is conceded by all cane growers that the past season was the most unfavorable for the product in this locality, that we have had for several years. Many of the growers neglected to plant early enough, and others were obliged to replant owing to the dry weather, and which continuing during the summer, made the crop very backward, in consequence of which but a very small portion of it matured at the proper time. This, in connection with the severe early frosts so injured the crop that only half a yield was obtained, and much of that was of inferior quality, which was alike discouraging to the refinery and growers. Elsewhere, the cane yielded from 20 to 25 tons per acre, and in the vicinity of Belvidere runs as high as 28 tons per acre, which would yield from two to three hundred gallons of syrup. The cane should be planted from the 10th to the 15th of May or as early as the ground is warm enough to receive the seed, thus giving the crop ample time to mature, and be worked up before the frost. We think with the experience of all concerned this season in the growing of cane, that next year we can look for an extensive and remunerative business in this branch of agriculture.

CATARRH

Catarrh of the Nasal Cavities, Acute, Chronic, and Ulcerative, Hay Fever, or Rose Catarrh, Catarrh of the Eye and Ear, and Catarrh of the Throat.

SUCCESSFULLY TREATED WITH

SANFORD'S RADICAL CURE.

CATARRH is a disease of the mucous membrane. Temperaments and constitutions vary its severity in individual cases. Catarrh may arise from a cold or a succession of colds, from sudden change of atmosphere, wearing wet clothing, or exposure to inclement weather, and becoming thoroughly chilled when the digestive organs are in a morbid or inactive condition, and the strength and vital forces exhausted. The disease may arise from a scrofulous condition of the blood, from Scarlet Fever, Measles, and Diphtheria, in which cases the eye and ear are generally involved and discharge quantities of matter. The discharges from the nose, the distinctive feature in all catarrhal cases from whatever cause they arise, may be thin and watery, and so acid as to cause redness and excoriation of the skin with which they come in contact, or thick and yellowish, emitting a foul odor, or clear and white like the white of an egg. There may be an entire lack of secretion, the surfaces being dry and feverish, the face, front and upper part of the head feeling uncomfortable, and as if it was encircled by a tight, unyielding band. This latter phase is called Dry Catarrh. The free mattery discharges cause the passages to swell and become thickened, rendering breathing through the nose difficult or impossible, and the sufferer finds it necessary to breathe through the mouth, thereby permitting cold air to pass directly to the bronchial tubes and lungs. The matter passing down the throat creates a constant desire to hawk and expectorate to throw it off; but when the membrane is dry and feverish, instead of passing freely down from the nose and throat, the mucus becomes hard and forms into scabs, incrustations, and hard lumps, which adhere so firmly to the nasal passages and throat as to require very persistent efforts to dislodge them. The eye in sympathy becomes inflamed, red, weak, and watery, or in the morning the lids may be found glued together, and matter is secreted in more or less quantity. The ear also becomes seriously affected, discharging quantities of matter, besides being visited by the most violent neuralgic pains, ending frequently in inflammation, ulceration, and finally deafness. The throat, bronchial tubes, and lungs are in many cases affected by catarrh, and when prostration of the nervous system is superadded, such affections become alarming.

A brief survey of this most serious disease warns all who are afflicted with it to make speedy preparation for its treatment before it becomes chronic. The advantages offered by SANFORD'S RADICAL CURE we confidently believe are to be found in no other remedy. Every step in its preparation, every line in the directions, mark it as a scientific remedy, calculated to meet every phase of the disease. The numerous testimonials from the best people in the United States attest the esteem in which it is held by those who have been freed from the most destructive and dangerous disease with which mankind is to-day afflicted

JUST PUBLISHED.

A carefully revised Treatise on Catarrh, with an accurate description of symptoms and sympathetic diseases, together with minute directions for effecting with SANFORD'S RADICAL CURE a speedy and permanent cure. Dr. V. CLARENCE PRICE
—HAS—
Visited Janesville EIGHTEEN YEARS.

HAS met with unparalleled success in the treatment of all
Chronic Diseases
—OF THE—
THROAT, LUNGS, HEART, STOMACH, LIVER.

Head, nerves, kidneys, bladder, womb, and blood affections of the urinary organs, gravel, scrofula, rheumatism, catarrh, asthma, bronchitis, dyspepsia, &c.

Dr. Price's reputation has been acquired by candid, honest dealing and years of successful practice.

My practice not one of experiment, but founded on the laws of Nature, with years of experience and evidence to sustain it, does not tear down, make sick to make well; no harsh treatment, no trifling, no flattering. We know the cause and the remedy needed; no guess work, but knowledge gained by years of experience in the treatment of Chronic diseases exclusively; no encouragement without a prospect. Candid in our opinions, reasonable in our charges, claim not to know everything, or cure everybody, but do lay claim to reason and common sense. We invite the sick, no matter what their ailment, to call and investigate before they abandon hope, make interrogations and decide for yourselves; it will cost nothing as consultation is free. Visits made regularly.

CITY AND COUNTY.

BRIEFLETS.

—E. G. Fifield returned from the East last night.

—Rev. Jenk Ll. Jones will preach the funeral sermon of the late Mrs. Chas. W. Stark, at the Congregational church, in Shopiere, on Sunday afternoon at three o'clock.

—Mr. W. F. Aiken in coming from his home in Harmony to Bump & Gray's warehouse in this city lost a lady's gold watch. The finder will be rewarded by leaving it at the Gazette office.

—There will be a coffee sociable at the residence of Rev. H. Sewell, No. 50, West Bluff St., near the passenger depot, given by the ladies of the First M. E. Church, this evening. All are cordially invited.

—A unique way of using old cigar boxes has been devised by Croft & Sherer. They have fixed them up in the form of letters for a sign announcing that they have cigars on sale. There's nothing like economy and ingenuity.

—About a dozen members of the Janesville Temple of Honor, went in a carryall to Milton Junction last night to attend the open meeting of the Temple of Honor there. There was a crowd in attendance. Speeches were made by Rev T P Sawin, Rev Jenk Ll Jones, A D Wickham, and S C Burnham, Jr., and a rousing good time resulted. A spread of good things followed, and many partook. The affair was pronounced a success, and excited considerable enthusiasm.

—When Christiansen stepped out of his cell yesterday into the corridor and was introduced to Dr. Burns, he was told that the Doctor had examined the heads of nearly all the others, and wanted to examine his. Christiansen thought a minute, and then said in his peculiar palateless way, "Well I waived examination yesterday, and I don't see why I should have to be examined to-day." He was assured that it was not compulsory, and finally concluded to sit down and have his bumps felt.

—There's no excuse now for being careless with your teeth or nails or hair. As will be seen by an announcement in another column, Eldredge the druggist, has just received a big stock of brushes, which he claims is the largest ever received in this city. All sorts of brushes little and big, cheap and costly. That isn't all that Eldredge has. He has been getting in a lot of trusses too. He has also been stocking up on paints, oils, drugs, and everything in his line, so that he is better prepared than ever to handle his trade, and that is saying a good deal.

—There was a large gathering at the Opera house last night to greet Pat Rooney's combination. The show was of the ordinary run of variety shows, having some good things, and some that were rather thin. On the whole it gave the audience a fair evening's entertainment, but it did not meet the expectations of most of those who expected to see something extraordinarily fine. Many grumbled because they found on going to the office that seventy-five cents was charged for every seat down stairs whether reserved or not, and fifty cents for the gallery. There was nothing in the entertainment of a low order, nor was there anything which should call forth unbounded praise. It was a fair entertainment of the variety sort—simply that and nothing more.

CARROLL SURRENDERS.

Patrick Carroll, who is charged with being the indirect cause of old man McCarthy's death, by pushing him off the sidewalk; gave himself up this morning. The examination of the case is set for this afternoon before Justice Prichard.

THEY DECLINE TO ADVANCE.

While nearly everybody is busy marking up goods to correspond with the general rise of prices among manufacturers, Britton & Kimball are busy selling their stock at low prices. They have the largest stocks of furniture which can be found, and in variety it surely cannot be beaten. There is everything that a person can want in that line, and every imaginable style, embracing all that is latest and best. As long as they do business here the way they have been doing it for years past, and the way they will do it for years to come, there is no use spending time and money running about the country in search of a better place, for it can't be found. With prices still to the bottom, it is no wonder that they keep their trade, and that it is increasing fast. Just drop in there and look over their stock.

LIST OF PATENTS.

The following patents were issued from the United States Patent Office, to citizens of Wisconsin, for the week ending October 14, 1879. Reported by S. A. Hudson, Solicitor of Patents, Lappin's Block, Janesville, Wis.:

Chain hook—James E. Studley, Oshkosh.

Knot tiers for grain binders—Ole O. Stoole, Milwaukee.

Self locking and releasing attachments for levers, crank arms, &c., Ole O Stoole, Milwaukee.

Feed water heater—James Argall, Mineral Point.

Farm gates—George Johnson, Wanconsta.

EMERALD GROVE.

—Rock County seems to be noted for bloody crimes. An incident occurred in the town of La Prairie recently, which though not bloody, shows how little feeling a man can have for his family. A farmer living in the above named town, sold his grain, tools, in fact everything, and ran away, leaving his wife and three small children, the youngest only three weeks old, entirely destitute of the necessaries of life.

—A full attendance of the members of Emerald Grove Lodge, I O G T is requested next Saturday night as business of importance is to come before the Lodge.

—S H and E Joiner have sold four Suffolk pigs this week, three of them being shipped to Iowa.

—The prohibition convention which met in Milton on Wednesday, to nominate an Assemblyman, was well represented from this town.

HELD FOR MURDER.

Mrs. Fogarty's Examination at Milton—What Fogarty's Brother Has to Say—A Strange Coincidence.

Yesterday afternoon Mrs. Fogarty was taken to Milton to have her examination. District Attorney Sale appearing for the State, and E. M. Hyzer for the defense. The witnesses examined on behalf of the State were Dr. Borden, Mr. Greene, Mr. Goodrich, and Sheriff Comstock, from whom were learned no facts beyond those already given in the Gazette. No witnesses were presented on behalf of the defense, and the examination closed about eight o'clock last evening, the prisoner being committed to jail to answer to the charge of murder before the Circuit Court.

The two children have been taken to La Prairie where they are to live with Mr. Fogarty's step father Mr. Bradley.

A step-brother of Fogarty's was in the city to-day. He told us that on the Thursday before the murder Fogarty was at his house, and stayed over night. He told young Bradley that Christiansen had told him that while in Louisiana he killed a man in self-defense in a quarrel about a girl. Bradley told him that he shouldn't think he would have such a man in his house but he said he didn't care much about that, for Christiansen wasn't to blame, and that he seemed like a smooth sort of a fellow. Fogarty never spoke much about family matters and never said anything about suspecting Christiansen of being intimate with his wife, or of any trouble with him. If he had suspected this or known it, he wouldn't have been apt to say anything about it on account of the family. Fogarty borrowed $10 of him that day, and he got $8 more from some old iron he sold. What became of the $18 is not known. Fogarty's pocket book was found on Christiansen but only a little change in it.

Young Bradley also remarked that on that Thursday he barely escaped shooting Fogarty accidentally. Bradley and Fogarty were shooting at a mark, and the latter was trying his step-brother's revolver. Fogarty cocked the revolver and handed it to Bradley, who, not noticing that it was cocked, jestingly pointed it right at Fogarty's abdomen, and touched his finger to the trigger, but it was hard to go off, and this saved Fogarty. In an instant he noticed that the revolver was cocked, and when he realized how nearly he had come to shooting the man, he became most thoroughly frightened, as was also Fogarty who considered his escape most miraculous.

A strange coincidence occurred yesterday. As Mrs. Fogarty in charge of the officers, was going to Milton to have her examination, the carriage was met by a funeral procession coming from the opposite direction. The procession consisted of a hearse and one carriage. Within that hearse was the mangled and charred form of her murdered husband. The remains were brought to this city, and quietly interred in the Catholic cemetery. As Mrs. Fogarty passed the procession, and was told whose it was, she burst into tears and sobbed violently.

Christiansen on being questioned by us this afternoon, denied the truth of Mrs. Fogarty's story as published in yesterday's Gazette. As far as he knew, she slept right through the night. He didn't see her. He went into her room to get Fogarty's coat, and that was how the blood got there from his clothes, but she wasn't awake that he knew of. He also says that he had intercourse with her but once, and that was the time she speaks of, but that he did not force her. Otherwise his story stands as first told.

Mrs. Fogarty on being asked about this said that Christiansen had lied, and that her story as told yesterday was true, and she would not change it.

A FOOLISH DOUBT.

It Keeps Some Still on the hunt for Baumgarten—A Visit to the Dane County Jail.

It is strange how difficult it is to convince some people that Baumgarten is in Waupun, notwithstanding the proofs that he had been sentenced, and has been taken there. The State Journal, yesterday says that some of the Fulton people are still doubting and they have an idea that the the prisoner is in Dane county jail. It chronicles the fact that David Earle, of Fulton was there Saturday, and he went to the Insane Asylum Sunday looking for the boy, and on being informed the prisoner was not there he went to the jail where he had the following conversation with Sheriff Baldwin.

"I am looking after Baumgarten," said Earle in answer to the Sheriff's question as to his business in town."

"That's queer," said the officer; "you know he's in Waupun."

"No, he isn't in Waupun; I've been up there, and I know he isn't; I've searched the records of Green county and find no evidence of his sentence. You folks have him up here somewhere, hiding him from the lynchers."

The Sheriff assured his visitor that all he knew of Baumgarten was, that he was reported to be in Waupun; the officers had passed through Madison with him in a buggy, on their way to Columbus, where they shipped him by rail to the State Prison.

Monday evening three or four men were hanging about the street in front of the jail at Madison, and the Sheriff went out and questioned them. They evaded the questions for a time but finally admitted they were from Fulton, this county. They said they had acquaintances in Madison, but their object was to find Baumgarten. They repeated about the same story as above given, and on being assured that Baumgarten was not there they disappeared. It seems strange that such a delusion should still exist when there is no doubt at all that Baumgarten is in Waupun. That is a settled fact, and it seems foolish to further keep up such a hunt, as it is a waste of time and strength.

SAFE AT HOME.

Facts and Figures Concerning Burr Robbins' Season Which Has Now Closed.

Home again. Burr Robbins and all those connected with his great show are gladly welcomed back to Janesville again. His many friends here have been gladdened from time to time by encouraging reports of the success with which he has met this season, and they will be still further gladdened to learn a further confirmation of those reports. The season has indeed been a remarkably prosperous one. Opposition has been strong, but Robbins has walked away from all of it. This is easily accounted for, as he has already established a reputation, which is enough to draw of itself, and the steady improvements in the show resulting from his enterprise, tells with the public. The season's business has been remarkably good, and was not characterized by the usual spurts and then falling off, which generally characterize a show. The business was good and steady all of the time, and all will rejoice to learn of the well merited success which has attended the season's work.

Burr Robbins opened the season in this city May 3, and closed at Reedsburgh October 16, making a season of about twenty-four weeks. It has been a very favorable season as far as good roads and fine weather are concerned, they being the best which the show has had for years. The show went as far south as Cairo and as far north as St. Cloud, Minn. The route was confined to four States, and one hundred and forty-three single day stands were made as follows:

Wisconsin	15
Illinois	88
Iowa	25
Minnesota	15
	143

As an afternoon and evening performance were given on each of these days, the total number of performances for the season is 286. The show traveled 2,960 miles entirely by wagons, no use being made of rail. While the tents were filled daily with crowds of eager people, and the gate receipts rolled up into immense sums, yet we are not to conclude that it is all money and all fun to run a circus. It takes money and brains, and a good deal of each. Few have any idea of the expenses connected with a show of this kind. To say nothing of the money invested, the wear and tear, the salaries, and many other large amounts necessarily expended, we would present some of the minor expenses, which will prove of interest to all our readers. During the season there was consumed for feed 510 tons of hay, 13,600 bushels of oats, 5,100 bushels of corn, 170 tons of straw. There were also used 34,000 pounds of meat and 17,000 pounds of bread.

The advertising department was no small expense. There was paid out to newspapers the snug sum of $7,100. There was an average of 400 feet of paper billed every day, and 300 feet of new board built every day. During the season 143,000 sheets of pictorial paper was used, 858,000 programmes scattered among the people, making quite a distribution of reading matter. The matter of paste is no little expense, for during the season there were 14,300 pounds of starch used. Another item of expenditure was that of license. To get the necessary State and local licenses cost $6,020. From these items may be easily seen that it costs money to run a show, even after you have got the show.

The health of the company has been excellent, and the season has been unmarked by accidents. Only a few horses have been lost, the whole number not reaching ten, which considering the large amount of stock, and the work they had to do, is something remarkable. There was not an animal lost either. In fact the whole season seemed to be crowded with prosperity in all details of the work.

Mr. Robbins may well congratulate himself on the success which continues to crown his efforts to please the public, and with such encouragement it is certain that his enterprise will not weaken.

We are indebted for most of the figures given above, to Mr. George K Steele, the advance agent of Mr. Robbins, and they can be relied on as certain and sure. He is a valuable man in his line, and is thoroughly posted, and no one knows better than he what has been done, and what ought to be done. He leaves, to-morrow, for his home in Virginia, where he will spend the winter.

Among the Useful Toilet Articles

we notice a much liked preparation for the hair, possessed of properties so remarkable that no one who cares to own a clean and healthy scalp with beautiful hair should pass it untried. Its properties are cleansing, invigorating and healing, and after a few applications the hair ceases to fall. Dandruff and Humors disappear, and the hair grows clean, soft and silky. It keeps the head cool and comfortable and gradually restores the hair, if gray or faded, to the natural and life like color, beautiful to look upon. It is Parker's Hair Balsam that has won such popular appreciation by its many excellent and healthful properties. Sold in large bottles at only 50 cts. and $1.00, by all first class druggists.

MONEY RAPIDLY MADE.

Small and large investments (from $25 to $10,000), in the combinations of Messrs. Lawrence & Co., pay large profits. This new and successful system unites thousands of orders from customers into one immense capital, and is managed with the best skill and experience in the stock market. Profits are shared pro rata by customers every month. Shareholders thus obtain all the advantages of large capitalists. Thousands are rapidly making money, and many have acquired handsome fortunes by this safe and legitimate method, which has been among the most successful of the movements of the Stock Exchange. £25 will make $125, or 5 per cent., $100 will return $500, $500 will net $3,000, etc., according to the state of the market. New explanatory circular, with "unerring rules for success," mailed to all applicants by Messrs. Lawrence & Co. Bankers, 57 Exchange Place, New York City.

REGULAR INDEPENDENT INCOMES,

Free from business troubles, are assured by prudent investments in stock. From $25 to $25,000, in the new Mutual Capitalization System, pays handsome profits. Anybody can successfully opperate by this new method, and receive a pro rata division of the aggregate profits secured by great concentration of capital. A Chicago bank cashier made $469.13 in a capitalization of $50. A Milwaukee brewer neted $792.36 from an investment of $150 during the month of May. A Savannah gentleman netted $6,310.12 from three capitalizations. The Stock markets just is now in a condition to realize large profits by safe and judicious investments. New circulars "Rules for Success," and invaluable information to every investor mailed free. All kinds of Stocks and Bonds bought and sold by ADAMS, BROWN & Co., Bankers and brokers, 26 & 28 Broad street, New York. oct11daw2w.

STOCK OPERATIONS THAT PAY.

The past few weeks have been prolific of immense percentages of profits at the New York Exchanges, by the careful use of moderate sums in well manipulated stock transactions, which returned a legitimate gain on capital invested according to correct business principles. Great activity prevails in the market. The safest and most successful method for operating in a regular way is in Financial Union by the Protective System of dealing in stocks, which affords absolute guarantees that cannot possibly be assured otherwise. The vast aggregates on the sales of shares that have recently attained such mighty proportions, have been chiefly promoted by the infusion of this new element, which has produced results surprising to all. The conservative basis of this system is its great safety. To be sure of gaining the large profits that accrue so quickly in stock movements, there must be reasonable protection against sweeping risks. This is why the Protective System excels all. On Monday three gentlemen in New York each invested $1,000 on Lake Shore stock by the Financial Union System, and on Thursday closed the operation with a net profit of $3,379.27 for each investor. Tuesday a bank cashier in Philadelphia put $3,500 in Protective Options on Northwestern stock, and on Saturday closed the contract with $12,685.73 profit. Early in the previous week two mechanics in Boston united their capital and invested $225 on Michigan Central, and 10 days afterwards they acknowledged receipt of $1,329.85 profits. The last week in July five farmers in Central New York invested $500 each in Financial Unions on St. Paul stock, and on Thursday, the 14th of August, they closed the deal and divided $18,000 equally between them. A lady in one of the departments in Washington used $50 for two weeks in Protectives on Western Union and Lake Shore stocks, and made a clean profit of $879.68. On Saturday a prominent Pennsylvanian politician invested $1,500 in Delaware, Lackawanna and Western and Michigan Central stocks, and in five days drew out of the market with $7,563.24 profit. A large brewer in St. Louis put $2,500 in Protectives on St. Paul and Northwestern stocks, and fifteen days afterward closed with a gain of $14,958.37. These are examples of what has been accomplished in Financial Union by the Protective System of operating in stocks when good advice has been followed.—With the present activity the prospects for gain in the near future are more favorable, as the operations are equally as good for catching the profits from fluctuations up or down as they occur. Amounts from $5 to $25,000 or more can be invested with proportionate success by the Financial Union System on regular sales, that leave the control of funds in the hands of investors, with a definite knowledge at all times of just what stocks their money is on, so that they can see at a glance what their profits are at any hour of the day by referring to market quotations. All operators are assured of straightforward treatment by the Financial Union System. Orders filled and information furnished by Messrs. ITHAMAR DIBBELL & Co., Bankers and Brokers, No. 19 BROAD Street, New York City. oct3daw4w

FURNITURE!

Still Down at Bottom Prices

Notwithstanding the recent advance in all kinds of Furniture, we are determined to keep prices as heretofore. Having kept posted as to the doings of the recent Convention of Furniture Manufacturers, we took advantage of the market and purchased 100 dozen Chairs, about four car loads, at the old prices with usual discounts. That's good news for persons wishing to purchase such goods. All goods at lowest prices. Parlor and Chamber Furniture the largest stock that was ever brought to this city. Our trade has never been better than last month. For five years past things have been booming with use. No use going to Chicago for Chamber Sets; we can beat them; we had it finely illustrated here to-day. No cheap goods here, but good goods cheap. No green lumber. If things are not as we tell you, we are here and you can see us; we are going to stay. Call and look over our stock.
